WARNINGS Read Before Using Your Sega Dreamcast Video Game System

CAUTION

Anyone who uses the Sega Dreamcast should read the operating manual for the software and console before operating them. A responsible adult should read these manuals together with any minors who will use the Sega Dreamcast before the minor uses it.

HEALTH AND EPILEPSY WARNING

Some small number of people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns that they encounter in everyday life, such as those in certain television images or video games. These seizures or loss of consciousness may occur even if the person has never had an epileptic seizure.

If you or anyone in your family has ever had symptoms related to epilepsy when exposed to flashing lights, consult your doctor prior to using the Sega Dreamcast.

In all cases, parents should monitor the use of video games by their children. If any player experiences dizziness, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, IMMEDIATELY DISCONTINUE USE AND CONSULT YOUR DOCTOR BEFORE RESUMING PLAY.

To reduce the possibility of such symptoms, the operator must follow these safety precautions at all times when using the Sega Dreamcast.

- Sit a minimum of 6.5 feet away from the television screen. This should be as far as the length of the controller cable.
- Do not play if you are tired or have not had much sleep.
- Make sure that the room in which you are playing has all the lights on and is well lit.
- Stop playing video games for at least ten to twenty minutes per hour. This will rest your eyes, neck, arms and fingers so that you can continue comfortably playing the game in the future.

OPERATING PRECAUTIONS

To prevent personal injury, property damage or malfunction:

- Before removing the disc, be sure it has stopped spinning.
- The Sega Dreamcast GD-ROM disc is intended for use exclusively on the Sega Dreamcast video game system. Do not use this disc in anything other than a Sega Dreamcast console, especially not in a CD player.
- Do not allow fingerprints or dirt on either side of the disc.
- Avoid bending the disc. Do not touch, smudge or scratch its surface.
- Do not modify or enlarge the center hole of the disc or use a disc that is cracked, modified or repaired with adhesive tape.
- Do not write on or apply anything to either side of the disc.
- Store the disc in its original case and do not expose it to high temperature and humidity.
- Do not leave the disc in direct sunlight or near a radiator or other source of heat.
- Use lens cleaner and a soft dry cloth to clean the disc, wiping gently from the center to the edge. Never use chemicals such as benzene and paint thinner to clean the disc.

PROJECTION TELEVISION WARNING

Still pictures or images may cause permanent picture tube damage or mark the phosphor of the CRT. Avoid repeated or extended use of video games on large-screen projection televisions.

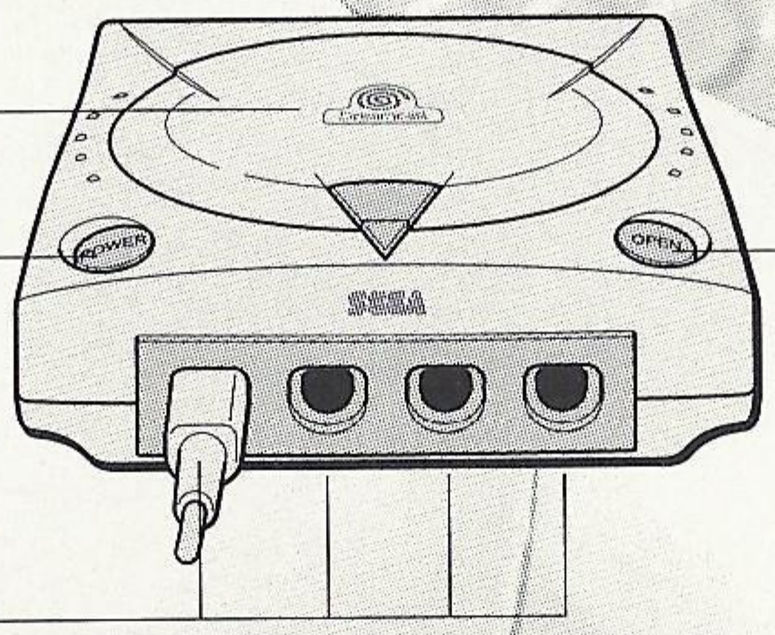
SEGA DREAMCAST™



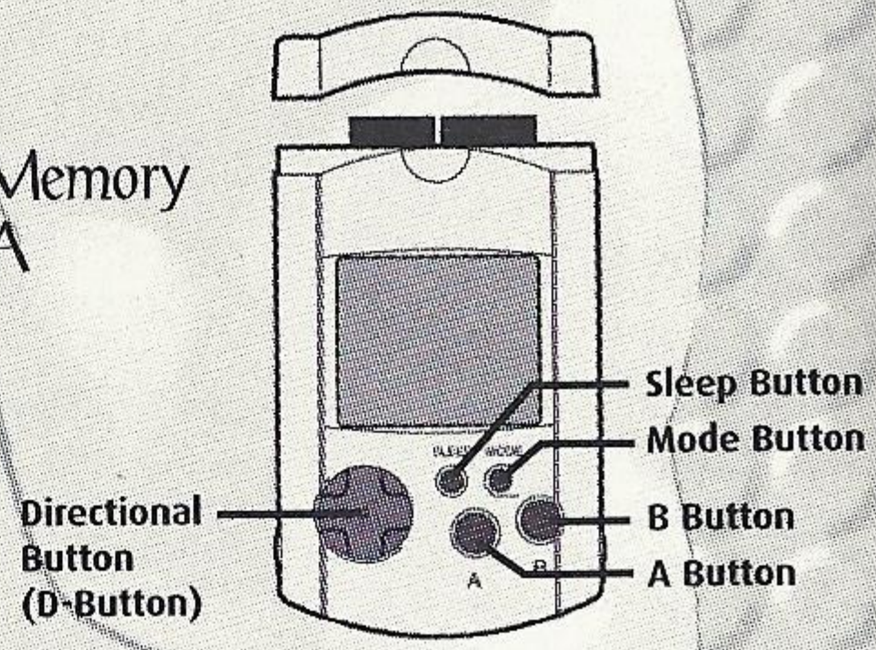
Use these ports to connect the Sega Dreamcast™ controller or other peripheral equipment. From left to right are **Control Port A, Control Port B, Control Port C,** and **Control Port D**. For **STREET FIGHTER III: THIRD STRIKE**, use Control Ports A and B to connect controllers for players 1 and 2 respectively.

STREET FIGHTER III: THIRD STRIKE is a 1-to-2 player game. Before turning the Sega Dreamcast power ON, connect the Sega Dreamcast controller(s) or other peripheral equipment into the control ports. Purchase additional controllers (sold separately) to play with two or more people.

SEGA DREAMCAST VISUAL MEMORY UNIT (VMU)

To save option settings and high score data, insert a Visual Memory Unit (VMU) into socket 1 of the controller in Control Port A BEFORE turning on the Sega Dreamcast.

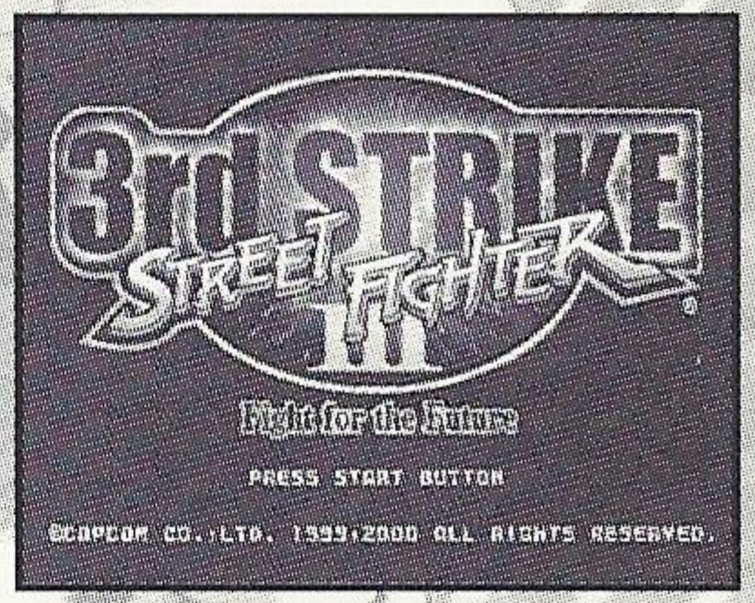
Note: While saving game data, never turn OFF the Sega Dreamcast power, remove the VMU or disconnect the controller.



STARTING A GAME

Press the START Button at the Title screen to display the Game Mode menu. To make your selections on the following screens, use the Directional Button or Joystick to choose and press the A Button to confirm.

- Select a game mode. (See game mode descriptions beginning on page 9.)
- Select a street fighter. Character colors will differ depending on which button you press to choose a character. (See fighter descriptions and individual moves starting on page 18.)
- Select a Super Art – a powerful special move – for your street fighter. Each character has three Super Arts. Choose the one that matches your playing style. In order to use your fighter's Super Art, you must fill your Super Art Gauge. (See each character's Super Arts starting on page 18.)



SAVING GAME DATA

STREET FIGHTER III: 3rd STRIKE auto-saves game data, such as option settings and high score information, at certain points during the game. To take advantage of the auto-save feature, insert a Visual Memory Unit (VMU) into socket 1 of the controller plugged into Control Port A.

This game requires 4 free blocks to save game data.

(The Jump Pack cannot be used with the Arcade Stick.)

Note: When the Jump Pack is inserted into Expansion Socket 1 of the Sega Dreamcast controller, the Jump Pack connects, but does not lock. If the controller is jarred, the Jump Pack may fall out during game play or otherwise inhibit game operation. The Jump Pack cannot be used with the Arcade Stick.

NOTES:

- **STREET FIGHTER III: THIRD STRIKE** is a 1-to-2 player game. Connect controllers or other peripheral equipment before turning on the Sega Dreamcast.
- The Sega Dreamcast controller's Analog Thumb Pad is not used in this game.
- When using any controller, to return to the Title screen at any point during game play, simultaneously press and hold the A, B, X, Y and START Buttons. This will cause the Sega Dreamcast to soft-reset the software and display the Title screen.
