Anyone who uses the Sega Dreamcast should read the operating manual for the software and console before operating them. A responsible adult should read these manuals together with any minors who will use the Sega Dreamcast before the minor uses it.

HEALTH AND EPILEPSY WARNING

Some small number of people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns that they encounter in everyday life, such as those in certain television images or video games. These seizures or loss of consciousness may occur even if the person has never had an epileptic seizure.

If you or anyone in your family has ever had symptoms related to epilepsy when exposed to flashing lights, consult your doctor prior to using Sega Dreamcast.

In all cases, parents should monitor the use of video games by their children. If any player experiences dizziness, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, IMMEDIATELY DISCONTINUE USE AND CONSULT YOUR DOCTOR BEFORE RESUMING PLAY.

To reduce the possibility of such symptoms, the operator must follow these safety precautions at all times when using Sega Dreamcast:

- Sit a minimum of 6.5 feet away from the television screen. This should be as far as the length of the controller cable.
- Do not play if you are tired or have not had much sleep.
- Make sure that the room in which you are playing has all the lights on and is well lit.
- Stop playing video games for at least ten to twenty minutes per hour. This will rest your eyes, neck, arms and fingers so that you can continue comfortably playing the game in the future.

INTRODUCTION

You are John Mullins. You are the best there is. The only thing colder than the steel in your hands is the ice that runs through your veins. You had three tours in Vietnam and got three Purple Hearts for your trouble. Army Special Forces trained you as part of the controversial PHOENIX group to assassinate high-ranking Vietcong officers and, in the process, made you a lethal weapon. You've seen things that would make the bravest of men wake up in the middle of the night screaming...and you've lived to tell about it. Like I said-you're the best there is.

The war is over now and so is your military career. You're in business for yourself, comrades in arms with Aaron "Hawk" Parsons and Sam Gladstone, buddies from your days in the service. You get most of your business from a U.N. anti-terrorist group known as "The Shop." The pay is good and their checks never bounce. You just received a communication from The Shop. Something nasty is going down beneath the streets of New York City. Get your gear and get Hawk on your cell-phone...this job's not going to wait.

QUICK START GUIDE

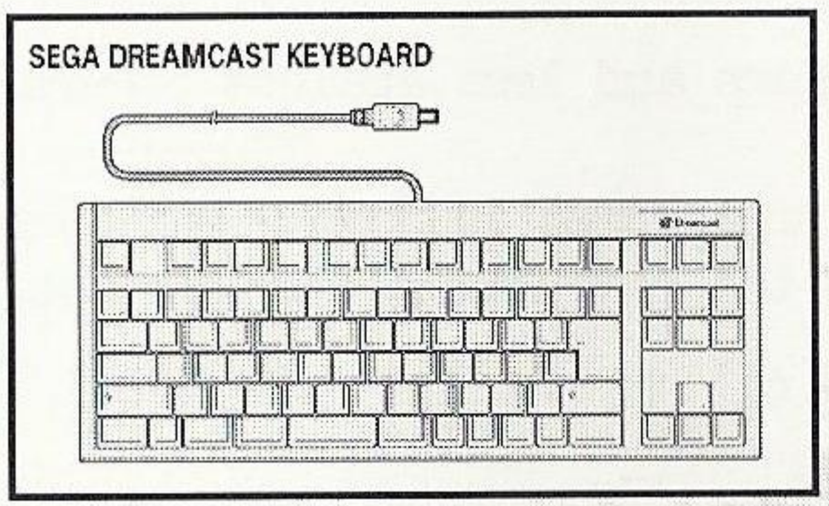

If you are a veteran of first person shooter games, you may wish to circumvent this manual and get right into the action. This quick start guide is for you. If you're new to the genre, please read on...

STARTING WEAPONS
1 - Combat Knife
Primary Attack - Stab
Alternate Attack - Throw knife
(cannot throw last knife)
2 - Pistol - Single Shot
4 - Shotgun - Spread Fire/Increased Damage

SPECIAL COMMANDS

Note: The more noise you make, the more enemies you will attract. The knife is a good choice for stealth. The pistol does more damage than the knife and less than the shotgun. The shotgun is very powerful, but the noise attracts a lot of enemies.

IMPORTANT GAMEPLAY TIPS

« Check your ammo levels and learn to reload your weapon before and after firefights. Stopping to reload in the middle of combat could cost you your life.

« Certain weapons do more damage against some enemies and less against others.

« The shotgun, for example, works very well against unarmored opponents but does minimal damage to armored foes. Experiment to find the best weapon for the job.

WEAPONS AND COMBAT ITEMS

Throughout the course of playing Soldier of Fortune, you will find a variety of in-view weapons and combat items. Some of these include a sniper rifle, submachine gun, rocket launcher, and the ultra-high-tech Microwave Pulse Gun. All in all, there are twelve in-view weapons and five combat items at your disposal, scattered throughout the game. Since finding them and discovering their abilities is half the fun, here's a description of the basic weaponry you will begin the game with. Finding out the rest is up to you...

WEAPONS

"PIG STICKER" COMBAT KNIFE
Ammo: 6 maximum in inventory
Weight: .46 kg
Weapon Slot Cost: 0 (standard issue)
Primary attack: Thrust/Slash
Alternate Attack: Throw. Cannot throw the last knife in your possession.
Description: Although primarily created as a thrusting weapon, this high-tensile steel combat/survival knife is weighted and balanced to allow skilled users to throw it with a high degree of accuracy. The perfect weapon when stealth is a must.

9MM BLACK PANTHER
Ammo: 9mm
Cartridge: 18 magazine
Fire Mode: Semi-automatic
RoF: 40 rpm
Muzzle Velocity: 350 mps
Weight: .86 kg
Weapon Slot Cost: 1
Description: Originally created in 1983 by an English company searching to create a lightweight, highly durable handgun, the Black Panther has quickly dominated the handgun market. Its remarkable success can be attributed to its simplicity, hardiness, and compact size.

B-42 (BERSERKER) 12-GAUGE SHOTGUN
Ammo: 12 gauge slug
Cartridge: 8 magazine
Fire Mode: Single Shot
RoF: 24 rpm
Muzzle Velocity: 385 mps
Weight: 4.86 kg
Weapon Slot Cost: 2
Description: Developed specifically for police and military use, the B-42 is a highly lethal close-combat assault weapon. Although the addition of the elbow hook on the skeleton stock allows the B-42 to be fired one-handed, it generally decreases the accuracy of the weapon.

COMBAT ITEMS

COMBAT ITEMS

Ballistic Armor

Description: Originally worn by police and SWAT units, the Ballistic Armor achieved worldwide success when it became more flexible and lightweight while still retaining a high amount of stopping power.

Flask Pak

Description: The Flash Pak (or stun grenade) emits a broadband light array and loud stunning explosion which causes anyone looking at the pak to be blinded and disoriented for a limited duration. In some instances, permanent blindness has occurred due to retinal burns.

C4 with Timer

Description: C4 has been portrayed as the plastic explosive of terrorists for many years in the mass media market. As it stands, plastique is a highly stable, highly explosive charge that can be used nearly anywhere. With the addition of the 5—second timer, plastique is a great way of circumventing locked doors and curious guards.

THE SHOP

THE SHOP/LASKY'S USED BOOKS

Periodically, you will visit Sam Gladstone at Lasky's Used Books to contact The Shop. Follow Sam to the back room and log on to the computer by "using" it (up on the D-Button). Using the computer brings up a modified version of the main game menu:

Get Mail Here - Select the flashing e-mail icon to receive your mission briefing from The Shop.

Continue Arrow - After reading your mission briefing, select on the flashing arrow in the lower right hand corner of the menu screen. This will take you to the Outfit menu.

Outfit Yourself - This sub screen allows you to acquire weapons and combat items from The Shop. The windows at the top of the screen show how many weapon and item slots you have available. The column on the left lists all of the weapons available for you to choose from and a description of each. The column on the right lists all of the combat items available for you to choose from and a description of each. Select the weapons and items you wish to acquire and their icons will fill in your remaining open slots. Don't forget ammunition! Your weapons aren't much good without it...

Note: The number of weapon and item slots is dependent on the difficulty level setting. The harder the difficulty level, the less equipment you will be able to carry to help you with your mission.

Deploy - Select the Deploy icon at the bottom of the Outfit menu screen after selecting all of your weapons and items. This button will send you to the next hotspot on your quest to take down The Order.

CHARACTERS AND ENEMIES

MEET THE HEROES

JOHN MULLINS – Born and raised in Southwest Oklahoma, Mullins served three tours in Vietnam, earning three Purple Hearts. He was also a member of the controversial PHOENIX group created to assassinate high ranking Vietcong officers. Mullins retired from the military to become a "consultant", or mercenary, twelve years ago. He now takes jobs from the U.N. anti-terrorist group called The Shop. With a medium build, Mullins boasts strength and speed that few men possess. You are in control of John Mullins throughout the course of the game.

AARON "HAWK" PARSONS – Parsons grew up in inner city Detroit and later fought in Desert Storm. Parsons is considered one of the army's best demolitions specialists. He is frequently partnered with John Mullins on jobs coming from The Shop. Hawk is a valuable source of information. His conversations with John Mullins offer advice, tips, and other useful information throughout the game.

SAM GLADSTONE – Bookstore owner and part-time employee of The Shop. A captain in Vietnam, Gladstone excelled at recon, later spending several years with the CIA. 62 years old. Bearded. You will meet Sam when you visit Lasky's Used Books. He'll put you in contact with The Shop and get you the equipment you need to complete your missions.

Note: In addition to John, Hawk, and Sam, you will meet several military personnel, police officers, and civilians throughout the course of the game. Their survival is crucial to the success of your mission, so keep them alive! Many of them will offer you useful information and/or assistance. You're here to save these people, so check your fire. You can walk up to civilians and hit the Use key (default spacebar) to see if they feel like talking to you. Clicking on a cowering civilian after a firefight will let them know it's okay to run away, as well.

THE BAD GUYS

The terrorist organization you're going after should not be taken lightly. Their leader is a madman with hundreds of loyal subjects at his disposal, willing to die on command. But you'll find that out soon enough. You'll encounter Iraqi soldiers, hate gang members, enemy soldiers, and numerous thugs en route to completing Soldier of Fortune. These men and women command an arsenal of weaponry and assault vehicles and should be considered armed and dangerous. Shoot to kill and take them down before they take you down. Civilian lives and the fate of the world are in your hands.

GET IN THERE

You're ready to go! Set your control configuration and your settings, then choose a difficulty level. Hawk is waiting for you at the subway station. Good luck! You're going to need it...
